

COURSE OUTLINE

AIM:

The course is aimed at watch or station managers who will undertake the welfare and logistics role at an operational incident.

OBJECTIVE:

At the end of the course the delegate will be able to:-

1. Identify the personnel welfare requirements at a large operational incident.
2. Undertake an assessment of dietary requirements to plan and obtain sufficient refreshments at protracted operational incidents.
3. Implement basic hygiene procedures at a large incident.
4. Advise the Incident Commander on the range and type of specialist equipment available within the service and its location.
5. Liaise with Service Control to obtain any specialist equipment required by the Incident Commander.
6. Ensure that the appropriate authorisation for payment of costs associated with obtaining specialist equipment is obtained before deployment.
7. Advise personnel on the availability of critical incident stress debriefing within the service.

DESCRIPTION:

- Delegates will produce a portfolio of video (DVD) and hard copy evidence of competence over the two days.
- Practical scenario assessment can be conducted using your in house simulator (Vector, Minerva) or command support unit. Digital Combustion or similar software will be used if you wish to tailor the scenarios to specific risks in your service.
- An online community of practice with discussion forum and chat room will be available to support delegates after the course ends.
